### Professional Experience

**Nov 2023– Now: Internship at CodSoft.in**

**Online.**

- Performing an internship on web development at CodSoft.in, an online platform which give internship and job placement opportunities to software professionals. It is running very well; it is expected to be done on 25<sup>th</sup> December 2023.

**Mar 2023 – Present: Web Designer at Chorale Saint Dominique de Kigali**

**Kigali-Rwanda**

- Designed and developed, managing a website for my church choir (Chorale Saint Dominique de Kigali).
- Updating information about different choir's activities to reach to the assembly of 800 Christians.
- Promoted songs through SEO and digital marketing, reaching to past 50,000 people as audiences on different platforms such as YouTube and Audio-Mack. That website is <https://csdk.rw>.
- Trained a group of other 3 choirmates to manage and update the website.

**Jan 2023 – Mar 2023: Freelance Web Designer at BNN LTD**

**Kigali-Rwanda**

- Designed a website ( <https://bnnltd.com> ) for marketing a construction company named BNN Ltd, which resulted to increasing 40% of recent gigs, and contracts.
- Still managing the website at the moment to reach up 70% of additional contracts

**May 2022 – Oct 2022: CEO City Estates 250 (Self-Employed)**

**Kigali-Rwanda**

- Managed a process of building a real estate web application, served up to 60% Rwandans living in Kigali to accessing online real estate services like residents, apartments, shops and outset, to name but a few. That web is: <https://cityestates.bubbleapps.io/version-test>
- Sold the website and generated \$3500.

**May 2020-: April 2023: WordPress Developer in I-connect Solution Rwanda**

**Kigali-Rwanda**

- Helped the company delivering digital services to 50+ potential clients such as web design, development, SEO, Digital Marketing, website management using WordPress. ( <https://iconnect.rw/> )

### Education

**Oct 2023 – now: Frontend Development Bootcamp at AZUBI AFRICA (Part-Time)**

**Online**

- After self-teaching traditional web technologies, I met a very warm organization called AZUBI to sharpen me as a frontend developer, with technologies: HTML, CSS, JavaScript and React. This program is helping a lot and will lead me to my career goals as a web developer.

**Apr 2022 – Sept 2023: Million Labs Bootcamp (Based in London, UK)**

**Online**

- Self-taught Bubble.io and passed an online exam offered by Million Labs Agency to own a certificate offered by them.

**Oct 2020-2021: Completed one year at University of Kigali in Computer Science**

**Kigali-Rwanda**

- Completed one year in computer sciences at University of Kigali with Distinction grades. Should resume studies in 2024.
